

Morning Announcements for School-Wide Behavioral Expectations

Monday

Last week we focused on the expectation of being RESPECTFUL in the Hallways. This week we will focus on what it looks like to be SAFE in the Hallways.

I will...

Walk

Stay on the right side of the hall

Keep eyes forward

Use handrail walking down steps

Allow for personal space of others

Each day, we will give you some tips on how to keep the hallways SAFE.

Today's tip has to do with **walking** in the hallways.

It is important to make sure that you **walk in the hallways** AT ALL TIMES. We know that you are excited to get to class each day. However, if you are running in the hallway, you might run into someone who is also trying to get down the hall. We want to make sure that all people in the building are able to safely travel from one area of the school to another. Please take time to practice walking with your class today as you travel in the hallways.

We will be keeping an eye out for students who are not only being Safe but who are showing ALL of our expectations. Remember to Be Safe, Be Respectful, Be Responsible (replace with school pledge or expectations motto).

Tuesday

Today we are focusing on the expectation of **staying on the right side as you walk down the halls**. This should happen when we are in a line with our class AND when we are walking independently down the halls. If we all travel on the right side of the hallway, the traffic flow of our school will run much more safely. This is so important as we enter the school in the morning and when we leave school in the afternoon because there are so many students traveling in our hallways at that time.

Please take time to practice what it looks like to stay on the right side of the hall. We will be keeping an eye out for students who are being SAFE in the hallways at all times. Remember to Be Safe, Be Respectful, Be Responsible (replace with school pledge or expectations motto).

Wednesday

Today we are focusing on the expectation of **keeping your eyes forward as you walk down the halls**. As I observe your lines each day, I notice that most of you are able to walk with your eyes forward. Every once in a while, I see a student who isn't paying attention and they end up running into other students or they end up separated from their classes because they forgot to keep their eyes facing forward. To make sure that all students transition safely in our building, make sure that you have your eyes on the hairdo of the person in front of you. Please practice keeping your eyes forward as you walk through the hallways today. We will be keeping an eye out for students who are being SAFE in the hallways today but as always remember to Be Safe, Be Respectful, Be Responsible (replace with school pledge or expectations motto).

THURSDAY

Today we are focusing on **using the handrail as you walk down the stairs**. There aren't many places in our school where we have handrails but it is an important expectation. As you are heading down to the Computer Lab or when you are heading to BAND or SPANISH, please make sure that you are walking down the stairs on the right side and that you are using the handrails. Make sure that you take time to practice this the next time that you head down the stairs. We will be keeping an eye out for students who are being SAFE in the hallways and who are following all of our expectations but as always remember to Be Safe, Be Respectful, Be Responsible (replace with school pledge or expectations motto).

FRIDAY

Today we are focusing on the expectation of **allowing for the personal space of others** as we walk through the hallways. To walk safely in line, we need to leave a little bit of room between each person so that if our line stops suddenly, we will not bump or hurt others in line. Practice with your teacher today what it looks like to allow for personal space of others as you walk through the hallways.

Next week and throughout the school year, remember SAFETY in the hallway means:

I will...

Walk

Stay on the right side of the hall

Keep eyes forward

Use handrail walking down steps

Allow for personal space of others

Remember to Be Safe, Be Respectful, Be Responsible (replace with school pledge or expectations motto).
