

### Instructions for assembling VB-MAPP flip book:

1. Download “VB-MAPP Flip Book” and “VB-MAPP Flip Book Supplements.”
2. For the flip book pages, print double-sided on cardstock (short edge binding), laminate and hole punch them, and store them in a 2" binder.
3. For the supplemental stimuli, print them double-sided on cardstock (short edge binding), laminate and cut them out, store them in labeled baggies, and Velcro the baggies to the relevant pages. Every stimulus will have a label on the back to allow for easy re-sorting.
4. Laminate and cut out the binder tabs, and use clear packing tape to attach them to the relevant sections.
5. Use dry erase markers on the writing pages and wipe them down after each assessment.
